Ms. Crawford had a lip piercing in a video about her saving her house from a foreclosure in August. A higher resolution photo of the Minneapolis incident would help identifying her.

Also, matching the picture in the article of her house with a tax appraisal on city-data.com, shows her address to be **989 Seminary Ave, St. Paul, Minnesota.**

She is also described as “She took the semester off from the University to work full time in the University’s Research Animal Resources department.”
